Instructions

^ COLLAPSE ^

1. Visit w3schools and go to the HTML Tutorial: https://my-learning.w3schools.com/tutorial/html
   1. Introduction and Basics Lessons 1.1 - 1.7
   2. Formatting and Style Lessons 2.1-2.6, 2.8 - 2.22
   3. Links Lessons 4.1 - 4.3
   4. Forms Lessons 10.1 - 10.6
2. Visit w3schools and go to the JavaScript Tutorial: https://my-learning.w3schools.com/tutorial/js
   1. Introduction Lessons 1.1 - 1.7
   2. Variables Lessons 2.1 - 2.4
   3. HTML DOM Lessons 22.1 - 22.14
3. Visit w3schools and go to the CSS Tutorial: https://my-learning.w3schools.com/tutorial/css
   1. Introduction Lessons 1.1 - 1.6
   2. Links Lesson 11.1
   3. Lists Lesson 12.1
   4. Selectors 16.1 - 16.5

Guide:

1. Make sure you're in the main branch locally and `git pull origin main` any pending changes
2. Make a new branch per the recommended branch name below (git checkout -b ...)
3. Fill in the items in the worksheet below (save as often as necessary)
4. Once finished, export the worksheet
5. Add the output file to any location of your choice in your repository folder
6. Check that git sees it via `git status`
7. If everything is good, continue to submit
   1. Track the file(s) via `git add`
   2. Commit the changes via `git commit` (don't forget the commit message)
   3. Push the changes to GitHub via `git push` (don't forget to refer to the proper branch)
   4. Create a pull request from the homework related branch to main (i.e., main <- "homework branch")
   5. Open and complete the merge of the pull request (it should turn purple)
   6. Locally checkout main and pull the latest changes (to prepare for future work)
8. Take the same output file and upload it to Canvas
   1. *This step is new since GitHub renders the PDF as an image the links aren't clickable so this method works better
   2. *Remember, the github process of these files are encouragement for your tracking of your progress

Branch name: M3-HTML-JS-CSS-Readings

Tasks: 12 Points: 10.00

● HTML Readings (2.5 pts.)

✓ **16. Selectors**   DONE   5 of 5 lessons completed

✓ **Lesson 16.1** - Combinators

✓ **Lesson 16.2** - Pseudo-class

✓ **Lesson 16.3** - Pseudo-element

✓ **Lesson 16.4** - Attr Selectors

✓ **Lesson 16.5** - Specificity

Screenshot of lesson 16 completed

● Reflection (2.5 pts.)

^COLLAPSE ^

Task #1 - Points: 1

Text: Reflect on the topics and refer to the checklist of this task

Checklist

*The checkboxes are for your own tracking

#	Points	Details
☐ #1	1	Mention specifics of what concepts/topics were totally new to you.
☐ #2	1	Mention specifics of what concepts/topics you already knew.
☐ #3	1	Mention specifics of any topics you still don't feel confident about. If everything makes sense so far you can mention so.
☐ #4	1	At least a few reasonable sentences.

Response:

Some new concepts I learned about were HTML forms, lists in CSS, and links in CSS. Some concepts I knew were basic syntax in all the languages like data types, variables, and statements. Some things that I dint feel confident about are DOM events, nodes, and animation. If I put more effort into learning this, I think that I will get better over time.
